Thank you for your enquiry about an Educational Psychology Assessment for Dyscalculia at the Dyslexia Association of Ireland (DAI). The DAI offers an individualised assessment service that investigates the presence and nature of mathematical/numeracy difficulties and establishes if these difficulties are consistent with a Specific Learning Difficulty (Dyscalculia).

The fee for the assessment is €300.00. We do not require any payment to be sent with the forms. We will ask for a 50% deposit when we have an assessment date for you. In very exceptional circumstances, a reduced rate may be available for families on social welfare or a very low income. Please contact the office if you feel that you may need such assistance. Please note that the waiting list for funded assessments is longer.

In order to assess an adult it is necessary to have their written informed consent. Please ensure that you complete and sign the attached Declaration of Informed Consent form and return it to us. We must have this signed form before we can offer you an appointment.

Please also find an Adult Information Form which we would ask you to complete and return along with any copies of any previous psychological reports. Please only send photocopies as we are unable to return these to you.

Forms should be returned to Dyslexia Association of Ireland, Fifth Floor, Block B, Joyce’s Court, Talbot Street, Dublin 1, or scanned/e-mailed to info@dyslexia.ie. Please note that the consent form should include original signatures.

Once we have received both of these forms we will place you on our waiting list and write to you to confirm this. These forms are reviewed by the educational psychologist before an assessment appointment date is offered. In a small number of cases the educational psychologist may contact you in advance of an appointment to clarify some issues or request additional information.
The assessment process in total takes approximately 60-90 minutes. This includes speaking with the psychologist, completion of tests, and verbal feedback. A written report is then sent to you by email (a hard copy can be posted if necessary). You can contact the DAI at any time after you have received the report if you have a query or are seeking some extra information.

The DAI will only conduct an IQ test if the educational psychologist deems it necessary and in the best interest of the client. An IQ test may be needed to fulfil a specific requirement such as supporting applications for certain resources or accommodations.

DAI educational psychologists all have accredited qualifications in educational psychology at postgraduate level, and are guided by the Educational Psychology Dyscalculia Assessment Policy. This policy is reviewed regularly to ensure it remains in line with current best practice and the most up to date psychological and educational research and evidence.

The DAI keep all records and information about clients confidential and secure as per data protection legislation and guidance. We retain records for six years before they are confidentially destroyed. **It is therefore important that you retain copies of reports for your own records.**

All staff working in the Dyslexia Association are Garda Vetted for Child and Vulnerable Adult Protection purposes and work within the guidance laid out in the DAI’s Child and Vulnerable Adult Protection Policy.

If you require any assistance to complete this paperwork or have any queries about the assessment process then please contact the office on (01) 877 6001 or [info@dyslexia.ie](mailto:info@dyslexia.ie).

Please keep this information sheet for your records.
Dyslexia Association of Ireland  
Educational Psychology Assessment of Dyscalculia

Can you explain why you want to be assessed for dyscalculia?

Which are areas of difficulty or concern?

- Arithmetic  
- Written maths problems 
- Time  
- Mental maths problems 
- Money  
- Estimating 
- Organisation  
- Concentration

Is there any family history of dyscalculia or maths difficulties?

Please add below any further information that you feel is relevant or may be helpful. Please attach extra pages or other reports as necessary.
