Revision books
Revision Books reviewed for students with dyslexia who will find it easier to access the content of the notes if there is bullet points, numbering of points, less text, highlighting of key words/concepts, colour and diagrams, bigger print, dyslexia friendly font and plenty of space on the page. The books below are given stars. The more stars, the more accessible the content. The subjects reviewed were those with a lot of facts for learning. There were other revision books for subjects such as English, languages, Maths etc. This is a personal view.
